Abstract; In this article role family in society, relationships moral educational family, laws Constitution Republic Uzbekistan and relationships family case discussion decision they take.

Keywords: family, concept family, upbringing family, relationships family, laws and decisions, environment family, structure family.

The family is a unit. society is the basis it organization does. In the sense The guardian is a relative. It also includes relatives. The psychological importance of the family is that is that experience era childhood each individual is formed in its environment Therefore, if the space family of love and love , devotion and gone, sincerity and heat separate in this case this way attitudes toward jealousy, hostility and hatred , grudge and It makes you angry. Children in the process Life is like this in the form of relationships. parents, sisters and They test their brothers. Therefore member family with each other finally dependent have. Which a problem that has befallen this or that member family does not come, either independently or dependently into life all member family impact Therefore, for solve that problem people family must with both came ways solution it discussion to do Foundation healthy family, provision life calm relaxed and eliminate to do problems society modern one of the requirements main progress society modern is to increase knowledge family, ready to make young people to life independently and prevention domestic violence and destruction them measures permanent must thought Family is one of the pillars of important and main society as a whole go, relationships social, economic, legal, moral and includes citizenship. Family, as phenomenon social, relationships marriage, kinship, relationships economic family, formation and development person, responsibility and obligation between members family based on rules manners morality and requirements certain legislation to regulate Human first basics mood. Attitude, behavior, actions, attitude towards

oneself and others, attitude towards work, attitude towards life society just from the family takes. From here family to marriage basis found, by the way love pure, equal wife man in a relationship family, continued giving generation, education and upbringing correct children and family members shape takes.

Family as oldest structure social history humanity in the making society human role and position important Family in every era time sea promotion society, certain to make construction economy - economy political, social cultural every people nation status and importance special had. For no reason no, that this is great family personality life, basis state, regulator development growth nation called. All two loss life with family work and family life dense related is. Family example the best and supreme coexistence wife man is that with leadership parents sea well - being morality and protection lineage, respect each other, support economic spiritual as smallest social organization width exists. Family must, first of all, have place living because the house place life opportunity together group people opportunity brought, place security they are also considered The teacher finds Sadriiddin Aini also at the beginning 20th century family healthy basis happiness family and place upbringing child announcement had done. Such sign tribute to father mothers, respect for the name pure woman and attention to the work girls women today both by people science and literature culture continuation and in turn the Government Tajikistan also support them all conditions necessary opportunity Family in life human compared to others institutes social highest and most valuable You have a position. Because your personality child right in the family formation and development to find and to master nuances appropriate - appropriate public gradually without problems entry place - place Depending on the reputation reputation parents and impact they are descendants teenager young man in the family qualities personality formation finds, that is exactly family in development physical spiritual person role important You are playing for this reason. example the best life togetherness of people, of course, family The family is formed as a result of marriage. between wife man is born comes. The basis organization family marriage and it is known official relationships family life basis puts.

One of the features special family among people Muslims, especially Tajiks, patriarchy considered It's bad. In all situation man support main family - the breadwinner, the guardian, the protector go and provide people The family is his responsibility. Wife support assistant and spouse loyal and is mainly aimed

at educating children busy is. In this regard requirements main social family also - thought existence wife husband and other member family at work life and friend to have respect each other is. Human, family and society – these three concepts the most important pillars philosophy are life. Feeling patriotism, pride national, self-identity national all this result family upbringing is because right in the family child first times concepts Homeland, freedom, father, mother, friend to have, originality man and the woman perception from the point of view of physical and moral depending on the environment family healthy and happy Education family basis all kinds of education is, because precisely in the environment family with efforts parents, relatives relatives generation teenager in terms of moral, physical , aesthetic, hard work, friendship, friendship, freedom , knowledge good bad upbringing It will be found.
